

Capability Statement

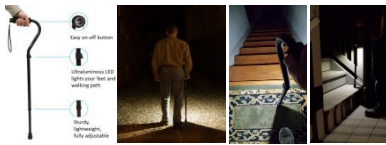

Technical Vision Inc. designs and manufactures innovative, effective and easy-to-use assistive devices that enhance personal safety, self-confidence and independence. We specialize in products for people with vision and mobility impairments to reduce the risk of injury from falling.

**Fall Prevention • HomeCare • Aging in Place
Occupational Therapy • Low Vision Rehabilitation**

PRODUCTS

StrideLight® Ultrabright Walking Cane

Bright clear light illuminates tripping hazards to reduce risk of falling under dark conditions. Ideal aid for vision and mobility impairments due to night blindness, glaucoma, macular degeneration, TBI, diabetes, multiple sclerosis, hypertension and Parkinson's Disease.

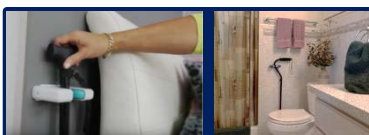

Unique Wellness Incontinence Products

Award-winning products based on the same principles as NASA's Maximum Absorbency Garments. Cost-effective 3 per day system fully absorbs all liquids to a separate layer to prevent skin rashes, reducing risk of infection. Lower costs realized through scheduled 8 hour changes rather than voiding patterns.

DropMeNot™ Universal Cane and Crutch Holder

Ideal for Hospitals, Clinics, Senior Residential, and at Home. **Ultrahygienic** to reduce infection risk. Securely fastens to walls and counters, easy to use, durable, attractive design handy, hands-free holder. Perfect in-home accessory for Independent Living.
